

# SAS University Edition

A free virtual application of SAS!

# How do I get it?

To download SAS University go to:

[http://www.sas.com/en\\_us/software/university-edition/download-software.html](http://www.sas.com/en_us/software/university-edition/download-software.html)

You will need to download two things:

1. VMware player/fusion or Oracle VirtualBox (unless you already have compatible virtualization software)
2. SAS University Edition

# What next?

Before you can get started there are 2 steps:

1. On your computer create a folders called **“SASUniversityEdition”** and in that create a subfolder called **“myfolders”**
2. Share **“myfolders”** with your VMXplayer

To share “myfolder”:

- Go into Vmware Player and select the SAS University Edition vApp
- Click **Edit virtual machine settings**
- In the **options** tab, select **Shared Folders**
- In the folder sharing area select **Always enabled**
- Add a new shared folder by **clicking Add**. In the name of the Shared folder step, click browse and **select the “myfolders”**

# How is SAS University Edition different?

## 2 ways SAS University Edition is different:

1. The structure of your LIBNAME statement.
  - You need to use a LIBNAME statement that points to the shared folder
  - **Ex:** If I have a folder on my C: drive called:  
**C:\SASUniversityEdition\myfolders**  
My LIBNAME statement would be: **libname test '/folders/myfolders';**
  - Note: the slashes used in the LIBNAME statement are NOT windows slashes (back slashes)
2. High performance procedures and some advanced statistical graphics are not available in SAS University
