ArcGIS Pro: Login Instructions (uOttawa)

Updated: September 2019

Prelude

- Before you can log in to ArcGIS Pro, you first need to create an ArcGIS Online Enterprise Account by following the steps outlined under the "ArcGIS Online" section: <u>https://uottawa.libguides.com/geospatial-data/GISResources</u>.
- You will also need to have installed ArcGIS Pro. You can find the necessary file under the "ArcGIS Pro" section: <u>https://uottawa.libguides.com/geospatial-data/GISResources</u>.

Step 1: Launch ArcGIS Pro on your desktop.

Step 2: Select Sign in.

Step 5: Enter in your uOttawa credentials (*username@uottawa.ca* | *Password*). Note that your username is your entire email address. This is the same login as your uOzone (students) or VirtuO (staff). Click "Login".

Step 6: (When applicable) For those of you who have set up 2-step verification with you uOttawa login, you may need to approve access on your mobile device.

Step 7: You have successfully signed in to your ArcGIS Pro software. You can now start to use ArcGIS Pro.
