Dear Householder:

Tuesday, June 1, is Census Day in Canada. Once every five years, Statistics Canada is required by law to take a complete inventory of the Canadian people.

By taking part in this national census, you will be helping to find out how our population has changed, how we live and work and other information essential in planning for the future. Census information is the basis for many important decisions by business and industry, governments, community and labour organizations. It is of fundamental importance to your community, your province and to Canada. For example, census figures are used extensively in the determination of government financial grants.

The Census of Canada is taken under the authority of the Statistics Act, which requires everyone to provide the information requested. The information you give will be kept confidential and used only to produce statistics. The Act ensures that no one will know what answers you gave except for sworn employees of Statistics Canada and they are subject to legal penalties if they disclose personal census information to anyone else. No other individual and no other government department is permitted access to your census questionnaire.

To assist you, an Instruction Booklet is enclosed with this questionnaire. If you need any further help, please use our Telephone Assistance Service. You will find the number to call listed on the cover of this questionnaire.

Thank you for your co-operation.

Chief Statistician, Ottawa, Canada.
