désirez un questionnaire français, veuillez appeler le Service
auxiliaire téléphonique. Les numéros à composer figurent sur
la couverture arrière. On vous remettra un questionnaire dans
la langue de votre choix.

Legal requirement
The census of Canada is taken under the authority of the
Statistics Act, which requires everyone to provide the informa-
tion requested.

Confidential when completed
The information you will give will be kept confidential and
used only for the production of statistics. No one will see the
answers you give except for persons sworn to secrecy under
the Statistics Act. These persons are subject to prosecution and
legal penalties if they disclose personal census information.

NOTE:
The guide should provide the answers to any problems that may
arise. If not, don’t hesitate to call our Telephone Assistance
Service. The numbers to call are listed on the back cover of
this questionnaire and all calls are free of charge.
A message to all Canadians . . . .

Every five years Canada takes a census — a national stock-taking of its people and their housing. From the information it provides, we, as a nation, are better equipped to meet the many challenges facing us at every level, national, regional and local.

The answers you give, when compiled into statistics, are used in determining economic and social policies, planning industrial development, and estimating needs for schools, roads and many other public services.

Population figures are used to determine electoral district boundaries, and to calculate per capita grants to provinces and municipalities. For every person who does not initially respond, additional funds must be spent on follow-up procedures. The failure to count yourself in could result in the loss of revenue to your own community.

The Statistics Act, under which the census is carried out, not only defines your obligation to co-operate, but ensures that the information you provide will be kept confidential and used only for the purposes of that Act.

Your co-operation is essential. Please do your part by completing this questionnaire promptly, as of June 3, 1981, in accordance with the instructions provided.

Thank you for your co-operation.

Census statistics tell us that:

• In 1976 the population of Canada was 22,992,604, an increase of almost one and a half million since 1971.

• Between 1971 and 1976 the percentage of married women who were in the labour force increased from 37% to 44%.

• Between 1971 and 1976 the under 30 population decreased to 53.8% of the total from 55.5%.

• Between 1971 and 1976 the number of children in Canada under 10 years old decreased by 450,000. At the same time, Canadians 50 years of age and over increased by 618,000.

• In 1976, 1,206,000 Canadians were living alone, an increase of almost 400,000 since 1971. More than one third (429,000) were 65 years of age and over.

How to Fill Out This Questionnaire

Please mark X all your answers clearly with a dark pencil or pen.

Answer the questions on pages 2 through 5. Then, starting with page 6, fill three pages for each person in your household, using the same order as you used in Question 1. For example, information for Person 2 will be entered on pages 9, 10, 11; information for Person 3 on pages 12, 13 and 14, etc.

INSTRUCTIONS FOR QUESTION 1

ORDER OF LISTING OF HOUSEHOLD MEMBERS

To ensure that all persons in the same family group are listed together, the following order should be used when entering the names of all members of the household in Question 1:

(a) Person 1:

Choose one of the following as Person 1:

• either the husband or the wife in any married couple living here

• either partner in a common-law relationship

• the parent, where one parent only lives with his or her never-married son(s) or daughter(s) of any age.

If none of the above applies, choose any adult member of this household.

(b) husband or wife (or common-law partner) of Person 1;

(c) never-married children or stepchildren of Person 1;

(d) other children of Person 1, and their families;

(e) other relatives of Person 1 (whether related by blood, marriage, adoption or common-law), and their families;

(f) persons not related to Person 1, and their families.

WHOM TO INCLUDE

To make certain that every resident of Canada is counted in the census (and that no one is counted more than once), the following guidelines should be used when deciding who should be included on this questionnaire.

Include

• all persons who usually live here, even if they are temporarily away (such as on business or at school);

• any persons staying or visiting here who have no other usual home;

• persons who usually live here but are now in an institution (such as a hospital, correctional institution), if they have been there for less than six months;

• unmarried persons who have a home elsewhere but stay in this dwelling most of the week while working;

• infants born on or before June 2, 1981;

• deceased persons who were alive at midnight between June 2 and June 3, 1981.

Do not include

• persons who are now in an institution and have been there for the past six months or longer;

• infants born on or after June 3, 1981;

• persons permanently away in the Armed Forces;

• post-secondary students who are financially independent and who live elsewhere;

• unmarried sons or daughters who live elsewhere most of the week while working, even if they return home on the weekends;

• foreign residents (see front cover).

HOUSEHOLDS WITH MORE THAN SIX PERSONS

If there are more than six persons in this household, enter the first six on one questionnaire and continue with the seventh person on a second questionnaire, starting in the row marked "Person 2".

If you need additional questionnaires, see the instructions for Question 1 in the Guide.
