A message to all Canadians....

On June 3, 1986, something happens in Canada that is very important for you and your future. It’s Census Day, the day on which Canada takes a look at its population and its social and economic life. Without your co-operation, we cannot have a successful census.

The census is important for you in many ways. With census results, better plans can be made for your health care, for improved day care facilities, for such things as roads, businesses and schools. The census means better planning for pensions, youth employment and for the needs of the disabled. Census results also help determine just what provincial grants should go to your community and what federal grants should come to your province.

The information you give is kept secret. It is used only to produce statistics. The Statistics Act ensures that no one will know the answers you give except for sworn employees of Statistics Canada. No other individual and no other government department is permitted access to your census form. At the same time, as defined by the Statistics Act, you have a legal responsibility to fill out this questionnaire.

For a census to work, all of us must count ourselves in. On June 3, 1986, a census happens in Canada. Do your part, by filling in this questionnaire, as accurately as possible, as of June 3.

Thank you for your co-operation.

In 1981, census statistics told us that:

- The population of Canada was 24,343,180, an increase of 5.9% since 1976.
- Canada’s population is aging. From 1971 to 1981, the proportion of people aged 65 years and over went from 8.1% to 9.7%.
- Since 1971, the number of divorced persons in Canada has almost tripled, going from 175,000 in 1971 to 500,000 in 1981. In 1971, they represented 1.2% of the adult population (15 years and over) compared to 2.7% ten years later.
- More and more Canadians are living alone. In 1981, there were close to 1.7 million people on their own. That was twice as many as in 1971.
- In 1980, the average family income in Canada was $26,748 a year. That was an increase of about 28% from 1970, price changes considered.

How to Fill Out This Questionnaire

Please mark ☒ or print all your answers clearly with a dark pencil or pen.

Answer the questions on pages 2 through 5. Then, starting with page 6, fill three pages for each person in your household, using the same order as you used in Question 1. For example, information for Person 2 will be entered on pages 9, 10, 11; information for Person 3 on pages 12, 13, and 14, etc.
