

Thursday 19
cloudy
pleasant

At 8-30 a.m. I was at Toronto and remained at the station awaiting the nine o'clock train in which Max & Julia arrived. It was their first trip from home alone and gave them great delight. Max told me that since yesterday Julia was in a constant state of excitement on account of the contemplated trip. - We visited at the Ross House. After breakfast we inspected King St, the market, then up Yonge St. through Queen's Park to the University, the museum visited them very much, returning we came down University Avenue past Osgoode Hall to the hotel where we dined. The meeting of American Gas Co. being in Toronto & the members at our hotel gave the dining room a very animated appearance. After dinner I took them up to the Steamer Empress of India, then to the boat house & wharves and finally to the Cyclorama - the Battle of Sedan. At 5 P.M. we left for home via Hamilton all feeling very tired having with the captain of the train at meals been continually on our feet. - At 8-30 P.M. we were at home, Julia & Oskar met us at the station. - It was a great day for the boys. -
