

- Sunday 13
fine
Busy at latitude. In afternoon attended funeral of Mrs. John Fuchs (Miss Clare), then visited the house and accompanied the procession along the street. There was a large concourse of people.
Evening Maie & I played games with the children.
- Monday 15
fine
Busy at latitude. - In evening had charge of Med. Inst. as M. A. Abbey was not well. Dr. Duck called to see Maie this afternoon and afterwards spent about two hours chatting with me. We discussed the building of the new school and the action taken by Geo. Clare therein. The Dr. stated that Clare was very selfish in the matter, & furthermore that "he can be very economic with the bush" & furthermore that "he can easily make up games to suit his purpose."
- Tuesday 16
very warm
Busy at latitude. In afternoon made a survey for R. Walder.
- Wednesday 17
very warm
Made a survey for J. Kloth near Fisher's hills. - Busy at examination questions for D.L.S. till near midnight. The country's very dry & rain is needed most urgently. Altho' everywhere is dusty yet on the hill sides facing the north patches of snow are still lying.
- Thursday 18
warm
Busy about the garden & at D.L.S. examination questions.
- Friday 19
cloudy, close
a little rain
Busy reading proof etc. - Good Friday.
- Saturday 20
fine
warm
Busy at Katman latitude. In afternoon attended public auction of sale of old Lutheran Church. - I finally bought it & the lot for \$480. My object is to prevent another from obtaining it & possibly making a tenement house thereof & thereby be-coming an eternal eyesore to me & a disgrace to our settlement.

April

which is now building up with pretty buildings, and also has
 thereby I can offer accommodation for some of the classes
 while the new school is building. - The arch-deacon Cleve
 who is a trustee also of the church has been trying to procure
 this. He'll do anything to help the building of the new school
 simply because he has not the control for putting in the
 furnace.

About midnight Marie & I with Leukine played for $\frac{1}{2}$ hour
 from for and hid the three nests with "obstruction"
 for our three dear boys.

Sunday 21
 Windy
 Cool

Easter Sunday. After breakfast the three boys scurried
 through the garden for "Osterlies", and of course were finally
 successful.

Did some latitude work. Evening games with boys.

Monday 22
 fine.

Busy at latitude.

Tuesday 23
 Cool

Busy at latitude. Marie & I spent the evening pleasantly at Mrs.
 Pattinson's.

Wednesday 24
 Cloudy
 after. rain

Busy at latitude. The long looked for rain came today, & made
 nature glad. - After tea Marie & I drove to fall & heard
 Mrs. Scott-Siddons give one of her fine entertainments - consisting
 of readings & recitations. She is a beautiful woman still, altho'
 age (about 40) is telling somewhat on her making her perhaps a trifle stout.
 We enjoyed the treat very much. - Pattinson, Dahl & Miss Chalmer
 were also down.

Thursday 25
 Cool

Busy at latitude & finish Kaluar. -

Friday 26
 Cloudy, cool

Busy in office & garden. Yesterday Marie cut the first
 asparagus. This is the earliest cutting that we or mother ever
 had. In evening at Med. Institute.

Saturday 27
 rain

Busy in office. In afternoon went out collecting from the
 principal men for a present for Mr. R. N. Jell the
