

June

With this continuous moist + cool weather I am obliged to keep the coal stove going in my office.

Sunday 9
fore. rainy
after. fine

In forenoon I did some computing; in afternoon the boys + I played croquet, + after tea Marie + we took a long stroll to and along the river. The evening was delightful + the landscape most attractive and varied. The boys were on the look out for bird's eggs, besides observing everything else in nature - be it a stone or a flower or beetle. Both Marie + I try to inculcate into the boys a deep love for nature, + I think are succeeding. —

— Returning we sat on the veranda in the soft twilight with guitar + flute and with snugs gently flitted away on the balmy air. After the boys had gone to bed Marie + I played duets on the piano.

Monday 10

Busy studying, computing. — After 4 took a long tramp.

Cool, cloudy
Tuesday 11

Busy in office.

pleasant

Wednesday 12

Busy in office. — This is the first warm day we have had in 3 weeks + more. — In afternoon Marie + I drove through Gall + down the east river road several miles returning by another road, new to me. The drive + scenery well most enjoyable. —

Thursday 13

Busy in office.

pleasant

Friday 14

Busy in office. I receive the remainder of the computation to do in regard to the 20-mile belt in British Columbia.

warm, fine

Saturday 15

Busy in office.

warm, sunny

Thunderstorm at noon

Did some computing. — Dorothea, Otto + little Dora were down.

Sunday 16

Played games with the boys. Marie + I musicated after they were in bed. — Toward midnight the rain began falling in torrents.

warm, rain
